2021-2022 School Accountability Report Card (Published During the 2022-2023 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>

For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>

For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

2022-23 School Overview

Mission Statement:

To provide our students a relevant, engaging, and comprehensive education, empowering all to be college and/or career ready global citizens.

This mission is grounded in the belief that our energy as a faculty and community needs to be truly focused on all our students in both words and actions. The statement acknowledges the importance of each high school class as a significant collection of information and skills while simultaneously acknowledging its importance related to the pathway of connected classes that form a student's larger academic trajectory. We have a shared responsibility to create courses and series of courses that will ensure our students will have as many realistic opportunities post-high school graduation as possible.

Eureka High School was recognized in May 2015 as a California Gold Ribbon School and as a US News Silver Medal School in 2016, 2017, 2018, and 2019. In 2020 EHS was recognized as a Gold PBIS school. We are proud of our award-winning academic environment. It is safe, clean and quite conducive to learning. EHS focused on the implementation and ongoing professional development with Constructing Meaning (CM), Unified Classroom, and AVID strategies. CM focuses on a student's ability to critically think and communicate across all curricular areas. All new teachers are completing a 5 day training this year. Unified Classroom is an upgrade to our current grade program and allows teachers to share information with students and parents via classroom pages and create assessments. EHS is a national AVID Site of Distinction and we continue to implement and train on AVID strategies such as Socratic seminar. EHS staff is continuously being trained in Restorative Practices, a proven method of reducing discipline issues and improving school climate. In meeting the diverse needs of our students, we provide a breadth of curriculum not available in any other public or private high school in Humboldt County. EHS is partnering with College of the Redwoods to offer a variety of dual enrollment classes, where students can receive college credit while on the high school campus. Our scholastic emphasis provides a college-going culture supported by an in-depth career technology education program (CTE), performing and visual arts, and a variety of athletics and clubs. All students will succeed at Eureka High School.

The Office of the Principal is at all times open to everyone and anyone who values quality education. Visit Eureka High School, we are the High School Of Choice from Ferndale to McKinleyville.

2022-23 School Overview

Major Achievements:

- Eureka High School offered 9 different AP courses, with three additional courses offered on a rotating basis. 5 additional courses receive UC/CSU honors credit. 2 courses totaling 11 sections are dual-enrolled with College of the Redwoods (numbers affected by COVID). This includes CTE classes, Freshman Seminar and AP Composition.
- 44 EHS students were recognized by the State of California with the Seal of Bi-Literacy
- We are a nationally recognized Service Learning School.
- Additionally, we boast programs with students and teachers receiving regional and state recognition and honors. These include honors in Future Farmers of America (FFA), Science Bowl team, Distributive Education Clubs of America (DECA - Business Education) and comprehensive programs in both instrumental and vocal music.
- We are proud that in addition to championships, our athletic program continues to build character through the Inside Out initiative in our student-athletes that impacts our community beyond the athletic arena. EHS has a student athletic council, with leaders from each team and hosted the first annual Loggerween in 2020.
- The EHS Theater Program continues to be recognized for the volume and quality of its productions which were adapted to online this year.
- EHS students consistently perform at the Regional Poetry Out Loud competition and have competed at the state level.
- EHS students have been finalists in Innovate Business Challenge sponsored by Decades of Difference multiple years, often with multiple students. (not held this year)
- EHS is home to a world-renowned bird collection and partners with the Audubon Society and Humboldt State University.
- EHS offers three World Languages- Spanish, German and Yurok.
- EHS is the only public school in the region offering the Prevention Project curriculum on human trafficking and was featured on CNN's The Freedom Project.

A. Conditions of Learning **State Priority: Basic**

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair

2022-23 Quality, Currency, Availability of Textbooks and Other Instructional Materials

Eureka City Unified held a Public Hearing on September 15, 2021 and determined that each school within the District has sufficient and good quality textbooks, instructional materials, or science lab equipment pursuant to the settlement of Williams vs. the State of California. All students, including English learners, are given their own individual standards-aligned textbooks or instructional materials, or both, in core subjects for use in the classroom and to take home. Textbooks and supplementary materials are adopted according to a cycle developed by the State Department of Education, making the textbooks used in the school the most current available. Materials approved for use by the State are reviewed by all teachers and a recommendation is made to the School Board by a selection committee composed of teachers and administrators. All recommended materials are available for parent examination at the district office prior to adoption. The table displays information about the quality, currency, and availability of the standards-aligned textbooks and other instructional materials used at the school.

School Facility Conditions and Planned Improvements

The Eureka High School Campus is situated on approximately fourteen acres of land, surrounded by a residential neighborhood. We have beautiful outdoor athletic facilities in Albee Stadium and Bud Cloney Baseball Field, providing the community with a prideful possession. The school buildings underwent a major remodeling effort supported by a school bond passed by the local voters in 2004. This effort has brought about several positive changes to the facility, along with various challenges. We now have a comprehensive visual arts program, boasting a Ceramics Studio, a Jewelry and Sculpture Studio, a Painting and Drawing Studio, and a Graphic Arts Studio. In our effort to maintain our offerings in Career & Technical Education, we have a modern building for our woodworking program and have a remodeled metals and welding facility. Another exciting focus for us is in a newly remodeled Information Technology Building, to house various new technologies programs of instruction. Our partnership with the local cable company, the county and various city governments, and Access Humboldt, the public access television station, resulted in the design and installation of a television studio within this building as well. We moved forward with Measure S projects, with the completion of the Music building in the spring of 2018. The new agriculture building was completed in early 2021 and students were able to enjoy the new facility when they returned to campus in March. Construction on the new gym began in June of 2021 with an anticipated completion date of November 2022. Plans for modernizing the science building are in process, which will include revitalizing classrooms, a new heating system, and a roof. Measure T, which will fund upgrades to Albee Stadium and Bud Cloney baseball field should break ground summer of 2022. The project will replace and modernize the drainage system, install a turf football field and new track. A new snack bar and restroom facility along with a new team room and upgrades to the existing team room is planned. Baseball and softball fields will be upgraded, along with batting cages and bullpens.

With these positive developments, our campus has many challenges as well. The main campus buildings are aged but historically significant, creating various levels of difficulty when designing improvements. Meeting challenges ranging from compliance with the Americans with Disabilities Act to the seemingly simple issues of upgrading electrical power required of new instructional technologies create a multitude of problems for us in these buildings. Many upgrades to technology and wifi occurred this year.

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).
4. **College and Career Ready**
The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

SARC Reporting in the 2020-2021 School Year Only

Where the most viable option, LEAs were required to administer the statewide summative assessment in ELA and mathematics. Where a statewide summative assessment was not the most viable option for the LEA (or for one or more grade-level[s] within the LEA) due to the pandemic, LEAs were allowed to report results from a different assessment that met the criteria established by the State Board of Education (SBE) on March 16, 2021. The assessments were required to be:

- Aligned with CA CCSS for ELA and mathematics;
- Available to students in grades 3 through 8, and grade 11; and
- Uniformly administered across a grade, grade span, school, or district to all eligible students.

Options

Note that the CAAs could only be administered in-person following health and safety requirements. If it was not viable for the LEA to administer the CAAs in person with health and safety guidelines in place, the LEA was directed to not administer the tests. There were no other assessment options available for the CAAs. Schools administered the Smarter Balanced Summative Assessments for ELA and mathematics, other assessments that meet the SBE criteria, or a combination of both, and they could only choose one of the following:

- Smarter Balanced ELA and mathematics summative assessments;
- Other assessments meeting the SBE criteria; or
- Combination of Smarter Balanced ELA and mathematics summative assessments and other assessments.

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

The 2020-21 data cells have N/A values because these data are not comparable to other year data due to the COVID-19 pandemic during the 2020-21 school year. Where the CAASPP assessments in ELA and/or mathematics is not the most viable option, the LEAs were allowed to administer local assessments. Therefore, the 2020-21 data between school years for the school, district, state are not an accurate comparison. As such, it is inappropriate to compare results of the 2020-21 school year to other school years.

Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Subject	School 2020-21	School 2021-22	District 2020-21	District 2021-22	State 2020-21	State 2021-22

2021-22 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

2021-22 Career Technical Education Programs

The students at Eureka High School participate in the district's Trade Academy by attending site visits with local industry partners and interacting with guest speakers in their classrooms. This program supplements the curriculum by adding on-site career exploration. Students also connect with local colleges by doing campus tours and classroom visits through HCOEs College Connect program, and Eureka High teachers take the opportunity to host guest lectures from professors and industry partners that specialize in trade work and technical education. Additionally, we cultivate partnerships with local agencies and business establishments to provide internship opportunities for students. Students are able to participate in internships that are both skill oriented and resume building in partnership with the Education at Work program. This semester we have students doing IT internships, working at Coast Central Credit Union, and a student retained a job post internship in the agriculture field. The percentage of students enrolling in CTE courses has remained near 40% of all students and students achieving pathway completer status has increased over the past five years. This effort is further supported through our ongoing articulation and partnership activities with Humboldt State University and College of the Redwoods.

This year, Eureka High School offers eight course sequences for CTE pathways that total 27 year long courses. The pathways focus on eight industry sectors including: Agriculture and Natural Resources, Building and Construction Trade, Hospitality, Tourism and Recreation, and Transportation.

The CTE advisory committee includes members who represent the plumbing, electrical, engineering, real estate, and financial services industries as well as employment services. We have a diverse collection of students representing the different pathways and reflecting our diverse student population, as well as members of our district and county offices. We included a school counselor that deals with our Career Technical Education programs to speak about the academic developments and our school leadership to address any recent or upcoming changes to our program.

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

2021-22 California Physical Fitness Test Results

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. Due to changes to the 2021-22 PFT administration, only participation results are required for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2022-23 Opportunities for Parental Involvement

Eureka High School is the largest secondary school on the North Coast of California. EHS is the only comprehensive high school serving the City of Eureka and its surrounding feeder communities. Our approximately 1,300 students are drawn from urban, suburban and rural areas of Humboldt County.

Eureka High School has several active parent groups serving students in many programs. PTSA, Music Boosters, Ag Boosters, Athletic Boosters, English Learner Advisory Committee and several other advisory committees for Career Technical Education that meet regularly. Each of these organizations is dedicated to improving programs for the students at our school.

Also promoting a positive learning environment are the All-Star Breakfast, Academic Fair showcasing students' work, Associated Student Body Academic Recognition awards, Advanced Placement classes, honors classes, athletic opportunities and awards, many clubs, including DECA, FFA, Multicultural, music, and drama.

Contact Eureka High School's main office at 441-2508 for more information.

Parents or community members who wish to participate in leadership teams, school committees, school activities, or become a volunteer may contact Eureka Senior High School at (707) 441-2508.

State Priority: School Climate

The SARC provides the following information relevant to the State priority: School Climate (Priority 6):

- Pupil suspension rates;
- Pupil expulsion rates; and
- Other local measures on the sense of safety

Suspensions and Expulsions

This table displays suspensions and expulsions data collected between July through February, partial school year due to the COVID-19 pandemic. The 2019-20 suspensions and expulsions rate data are not comparable to other year data because the 2019-20 school year is a partial school year due to the COVID-19 crisis. As such, it would be inappropriate to make any comparisons in rates of suspensions and expulsions in the 2019-20 school year compared to other school years.

Subject	School 2019-20	District 2019-20	State 2019-20
Suspensions	7.98	5.15	2.45
Expulsions	0.08	0.02	0.05

This table displays suspensions and expulsions data collected between July through June, each full school year respectively. Data collected during the 2020-21 school year may not be comparable to earlier years of this collection due to differences in learning mode instruction in response to the COVID-19 pandemic.

2022-23 School Safety Plan

Eureka High School reviews the comprehensive safety plan each year. The topic of school safety is included in regularly scheduled staff meetings throughout the year where important safe school planning components are discussed with the goal of keeping the plan current and active.

The broad-ranged plan provides a focus for our school in the two areas causing the greatest concern for our school: the potential for school violence from outside sources and related security concerns, in addition to readiness for a natural disaster. We have specifically focused on tasks to establish communication protocols. Student accountability and release procedures have been developed. Staff has been identified as having specialized skill sets to help with specific emergency situations.

In our effort to ensure we keep the issue of school safety in front of us, our administrative team meets every Monday morning, composed of school officials from the district and Eureka Police Department's SRO. This collaboration allows all involved to remain informed of community-based issues that may affect our schools. Working with The School Resource Officer, assigned to Eureka High School from the Eureka Police Department, the District Safety Coordinator actively leads the planning of our safe school readiness policies. We recognize that since our campus is spread out into multiple buildings that there are specific challenges we must address. While we see this physical layout as beneficial to our safety needs, it emphasizes the requirement for a solid communication link to be able to take advantage of this multi-building layout. In addition, Eureka Police Department and Humboldt Bay Fire have been consulted when coordinating and developing emergency release and response plans and when developing staff training.

2019-20 Secondary Average Class Size and Class Size Distribution

This table displays the 2019-20 average class size and class size distribution. The columns titled "Number of Classes" indicates how many classes fall into each size category (a range of total students per classroom). At the secondary school level, this information is reported by subject area rather than grade level.

2021-22 Types of Services Funded

The Eureka City Schools District has been experiencing a long-term declining enrollment, following a trend experienced throughout the county. This declining enrollment combined with drops in state revenue has resulted in declining funding for educational programs and related services. Despite these fiscal struggles, we have a complete and comprehensive English Learner Program and Special Education Services. EHS had an increase in enrollment for the last 4 school years. Our Economic Impact Aide funding partially supports our certificated Advancement Via Individual Determination (AVID) program which guides gifted but underachieving students toward college. We continue to offer ELD and English Loop classes to support English learners.

Professional Development

Eureka High School utilized weekly collaboration time to work as a whole staff, departments, subject-specific groups, and cross-curricular groups. This year's work has focused on the area of distance learning and adjustment of our curriculum due to COVID. There has been an ongoing focus on integration of AVID strategies and Constructing Meaning strategies school-wide. The majority of the staff is now trained in classroom circles, using a Restorative Justice model. New to the 2022-23 school year ECS has adopted Visible Learning strategies with a focus on Learning Intentions and Success Criteria. A monthly WEL team meeting plans the PD that focuses on rolling out these strategies.

Professional development is provided during after school workshops, through participation on district-wide committees, at conferences and on days teachers are released from classroom duties. Teachers are supported to implement what they learn by teacher-principal meetings, in-class coaching and collaborating with peers as a professional learning community.

Classified paraprofessional staff development is coordinated through our adult education program and is in modules relating to particular employment strands. The Humboldt County Office of Education provides on-going staff development addressing certificated personnel, classified personnel, pupil personnel services personnel, parents, and administrators.

When funding permits, teachers and staff are provided the opportunity to attend weekend conferences in line with the school's general curricular direction as well as Summer institutes in Writing, Literature, Math, Career Technical, Advanced Placement and AVID trainings.

This table displays the number of school days dedicated to staff development and continuous improvement.
